WELCOME WORDS TO WOMEN.

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive fr. e the advice of a physician of over forty years' experience—a skilled and successful specialist in the diseases of women. Every letter has the most careful consideration and is regarded as *sacredly* confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment cures in the privacy of your home. His "Favorite Prescription" has cured hundreds of thousands of bad cases. It is the only medicine of its kind that is the product of a regularly graduated physician. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to Dr. R. V. Pierce, Buffalo, N. Y.,—take his advice and be well.

Mrs. R. D. Monfort, of Lebanon, Warren Co., O., writes: "I have received the 'Medical Adviser.' A crisp, new five dollar bill could not tempt me to part with it."

On receipt of 21 one-cent stamps, to pay cost of mailing *only*, we will send to any address a paper-bound copy of Dr. Pierce's great 1000-page book, "The Common Sense Medical Adviser." Or, for 31 stamps the same in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets

The Original LITTLE LIVER PILLS, first put up by old Dr. R. V. Pierce over 40 years ago. **Much imitated, but never equaled.** Little pill, Little dose, but give great results in a curative way in all derangements of Stomach, Liver and Bowels.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

PAUL JONES'S BODY.

The remarkable search which Ambassador Porter has conducted for the body of Paul Jones has been crowned with success by the discovery of the body and its identification yesterday by the highest French medical experts as unquestionably that of the famous American admiral who founded the American navy.

Ambassador Porter cabled the news to Washington last night. The body is in a good state of preservation, considering that the interment took place over 100 years ago.

The circumstances leading to the discovery are particularly interesting. General Porter had conducted the search for five years, and when Congress recently took no action upon the President's recommendation for the expenses incident to the search the Ambassador continued the extensive labors at his own expense. A large force of workmen had been engaged night and day tunneling and cross-tunneling the old St. Louis Cemetery in Paris. This constituted a huge operation, embracing nearly a block covered with buildings and requiring a system of subterranean mining.

Hundreds of wooden coffins were found, but not until Wednesday were unearthed four of lead, which gave promise of containing the body of the Admiral. Three of them bore plates designating the names of the deceased. The fourth showed superior solidity of workmanship. No plate was found on this coffin, and it is supposed it was removed when another coffin was put upon it. The leaden coffin was opened in the presence of General Porter, Colonel Bailly-Blanchard, the second secretary of the American Embassy, and Engineer Weis, who has been directing the excavation. The body was found to be well preserved, owing to its being immersed in alcohol. It was wrapped in a sheet, with a packing of straw and hay. Those present were immediately struck by the resemblance of the head to that on the medallions and busts of the Admiral.

As was anticipated, no uniform, decoration or sword was found, as all such articles had been accounted for after the burial.

The coffin is shaped like a mummy coffin, which pattern was common at that period, widening from the feet to the shoulders, with a round top fitting over the head.

The coffin was taken to the Medical School, were Drs. Capitan and Papillaut, distinguished professors of the school of anthropology and recognized authorities on such investigations, were charged with making a thorough examination for the purpose of indentification. To facilitate this the Ambassadors furnished them with portraits and medallions, two busts by Houdin and authentic descriptions of the color of the Admiral's hair and the height and measurements of his body. After the most minute examination the following facts were fully substantiated:

Length of the body—Five feet seven inches, the Admiral's exact height.

Size and shape of the head—Agree with several peculiaritis identical with the head of the Admiral.

Hair—Dark brown, the same as the Admiral's; in places slightly gray, indicating a person of his age—45 years. The hair is long, reaching below the shoulders, and combed back and gathered in a clasp at the back of the neck.

The face is clean-shaved, all corresponding exactly with the descriptions, portraits and busts of the Admiral.

The linen is in good condition. One article bears an initial, either "J" or an inverted "P."

The body was carefully packed. The limbs were wrapped in tinfoil, presumably for sea transportation, as indicated in a latter of the Admiral's nearest friend and a pallbearer at his funeral, Colonel Blackden, who said: "His body was put in a leaden coffin, so that in case the United States, which he had so essentially served, should claim his remains, they might be more easily removed."

Finding that all the internal organs were singularly well preserved, the doctors made an autopsy, which showed distinct proof of the disease from which the Admiral is known to have died. The identification was pronounced complete in every particular.

Care has been taken to keep the body in its present state of preservation. It will be placed in a handsome coffin and deposited in the receiving vault of the American Church, on the Avenue de l'Alma, until the Ambassador can learn the opinion of his government concerning the most appropriate means of transporting it to the United States and giving it fitting sepulcher.

It is probable that a recommendation will be made to Congress at its next session looking to Ambassador Porter's reimbursement. The remains of John Paul Jones are to be brought to Washington and interred in the National Cemetery at Arlington, and it is likely that the transfer will be made the occasion of an interesting demonstration.

Last year, when the search for the body was begun, Mr. Moody, then Secretary of the Navy, stated that if the body were found this government would send a battleship to France to convey it to this country. It is not doubted that Secretary Morton will fulfill the promise then made.

It was said last night that in case it is decided to send a squadron to European waters this summer the body probably will be brought home on the flagship of that squadron.

New Cure For Cancer.

All surface cancers are now known to be cursble by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at E. S. Leadbeater & Sons' drug store.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, APRIL 15, 1905.

THERE SEEMS to be a hallucination among many in the State of Virginia at present that a man not possessing fluency of speech is not fitted for a representative man, and that a Senator who is not given to expatiating on every question raised, important or unimportant, whether his constituents are interested in it or not, is out of place in the halls of legislation. The onward march of the world shows this to be a mistake, as men in official position who say the least invariably accomplish the most. It is said that Benjamin Franklin was a slow and hesitating speaker, but in the days of the revolutionary war no one will controvert the claim that he played as important a part as did Patrick Henry. The late Jay Gould was a master of silence, and it is said that he invariably allowed others to do all the talking at directors' meetings, and after they had talked themselves out he either suggested what should be done or submitted a simple resolution which mapped out proper action. The time has come when practical people in other States are beginning to realize that action is one thing and talk another. The country is full of voluble aspirants for representative positions. Such in contracted fields may escape going into an eclipse, which might be their fate in a more expanded arena. Old Æsop tells of a man who captivated small groups in a public house by performing on a flute. He became conceited and imagined that his talent was being buried, and hired a vast hall in which to give his performances. The ambitious musician found he could not put wind enough in the flute to make it heard in the hall, and was hissed off the stage. It was sad, but the moral is far-reaching.

IN "The Popular Science Monthly" for April Dr. John M. Clark, State geologist of New York, considers the danger to which the cataract of Niagara is exposed by the utilization of its power for industrial purposes. When the two companies which are at work on the American side of the falls have availed themselves fully of their charter rights they will together take from the river 16,300 cubic feet of water per second. At least three of the companies to which similiar privileges have been granted in Canada show signs of activity and determination. If, as Dr. Clarke thinks is probable, they should go to the legal limit, they would consume more than 32,000 cubic feet a second, raising the total consumption to 48,000 cubic feet. Estimates of the capacity of the river made by United States engineers, range from 220,000 to 280,000 cubic feet, or only five times the quantity for the abstraction of which permission has been given already. Now, the water is much shallower on the New York side of Niagara than it is west of Goat Island, and "a competent hydraulic engineer," who is not mentioned by name, believes that the withdrawal of 40,000 cubic feet would leave the American fall dry! Whether these figures be altogether correct or not, it is indisputable that the American fall would be exhausted long before the rest of the contract; and that such a consummation may be witnessed within the next five or ten years is within the bounds of credibility. Up to the present time the effect of the operations of the pioneer corporation has been scarcely perceptible, but a too extensive imitation of its enterprising example can have but one result.

MISS SUSAN B. ANTHONY as an advocate of divorce helped to make things lively during yesterday's session of the National Council of Women in Washington. Trouble began with the introduction of a resolution to the effect that the organization pledged itself to co-operate with Church and State to ascertain what are the chief causes leading to divorce. Divorce in this resolution was referred to as the cause of most disastrous results in family and State. The resolution also declared "that we, the National Council of Women, practice and teach better methods of scientific and spiritual marriage, which must result in the higher preparation for offspring." Miss Anthony asserted that she did not consider divorce an evil by any means, as "it is just as much a refuge for women married to brutal men as Canada was once a refuge from brutal masters." She declared that she would never vote for a resolution that will cut women off from refuge from designing and brutal men. There was some pretty plain talk, but in the end the resolution was adopted.

LAST WINTER Senator Hale, chairman of the naval committee, manifested decided opposition to the administration's programme of naval expansion. Admiral Melville observed that public sentiment was growing cool toward a great navy. Ex-Secretary Long has expressed marked disapproval of the Roosevelt policy in this respect. And now Mr. Hackett, who was Assistant Secretary of the navy under the McKinley administration, says: "I confess I am not altogether in sympathy with those who insist that our navy must keep on increasing until in some sense it shall rival that of Great Britain." These are indications, suggests the Philadelpia Record, that the patient is convalescing from the war fever.

A WOMAN was tarred and feathered at Hudson, Mich., a few nights ago by several young women and four young men. Her alleged offense was similar to that of the unfortunate who many years ago was told to go and sin no more. From their action it is probable that it would have been difficult to find one of the tar and feartherers who could have conscientiously cast the first stone. David preferred to fall into the hands of God rather than those of men. It would be less dangerous for most people.

THE WORLD is about to enter again into what has been known in many centuries as holy week, when Jews, as well as Gentiles have their attention drawn to momentous scenes in the World's history—the Israelite to the time when the shackles of Egypt were broken, and the Christian to the most solemn events in the history of the God-man. It is a time when each is supposed to ponder on things more vital than those terrestrial.

PRESIDENT ROOSEVELT is said to be making many Southern appointments in order to win converts to the republicans. And he is succeeding, for a sad change has come over many of the Southern people and their growing desire for federal office has made them forget principles which at one time they most cherished.

A strong warning against the indiscriminate immigration of negroes from the United States to Liberia without being sufficiently supplied with funds to take care of themselves for at least six months after their arrival is contained in dispatches from Ernest Lyon, U. S. Minister at Monrovia. He refers to the party of 56 colored persons who went to Liberia from Erwin county, Georgia, in 1903, twenty of whom died within a few months; the remainder were ragged starving and homeless and finally had to be sent for by their friends here. Minister Lyon quotes a number of prominent officials and clergymen who say that there is nothing but death there for the poor ignorant classes who go there without any skilled trade and expect to become rich without labor.

The Navy Department was this afternoon informed in a dispatch from Pensacola of an accident to one of the guns on the battleship Iowa which occurred yesterday during target practice off that port. Fortunately no one was injured. It seems that after four of the eight-inch guns had been successfully tested preparations were made to test the fifth one. When it was fired the muzzle was blown off. The damaged gun has been in constant use on the Iowa since before the Spanish war and had been successfully fired 103 times before the accident occurred.

Gov. Montague of Virginia has informed the State Department in reponse to the inquiries of the Italian Ambassador that he will institute a searching investigation in order to determine whether or not the Italian, Leonto, who was killed a week ago after murdering a deputy sheriff who had attempted to arrest him, died by his own hand or whether he was killed by the mob which chased him down. The Department of Justice will also make an investigation on its own account into the affair.

It was announced at the Department of Justice this morning that the President has informed the Attorney General of his desire to appoint ex-Governor Atkinson, of West Virginia, as judge of the Court of Claims, to succeed the late Judge Weldon.

Captain Edson A. Lewis of the 18th Infantry has been sentenced to suffer the loss of ten files or numbers in his rank for defrauding a money lender named Louis Silverman of $225. According to the charges upon which Capt. Lewis was tried before a court martial, he borrowed the sum from Silverman giving him in exchange for the money his pay vouchers for the month of November, 1903. These vouchers were returned to him for the correction of certain informalities in the indorsements, whereupon he cashed duplicates of the vouchers at the paymaster's office instead of returning the originals to the money lender.

At an all day meeting of the Isthmian Canal Commission today a number of contracts for supplies were made, and arrangements were completed for the immediate employment of 2,000 Japanese coolies on the excavation work of the canal, the number to be increased to 10,000 in the near future.

The remains of the late Mexican Ambassador Don Manuel de Azpiroz were transferred today from the temporary receiving vault in Rock Creek Cemetery to Annapolis, whence they will be conveyed on the cruiser Columbia to Vera Cruz, Mexico. A guard of honor, consisting of Capt. C. C. Carpenter and eight marines, accompanied the casket from Washington to Annapolis, the train leaving this city at 2 o'clock, this afternoon. On the train, as representatives of the government, were Third Assistant Secretary of State Peirce and Commander Cameron McR. Winslow, the President's naval aid. Nineteen minute guns will be fired as a salute when the Columbia receives the remains aboard.

At Wichita, Kan., yesterday, Carrie Nation and two other women were fined and imprisoned for wrecking a wholesale liquor store.

The Sultan of Turkey has made a complete and definite settlement of the French claims, and agrees to use a third of a loan of $12,000,000 for ordering warships and artillery from French firms.

Admiral Rojestvensky's squadron is now believed to be lying off the Cuyos Islands, 80 miles south of Mindoro, Philippines. The islands belong to the United States, but the Russians are outside the three- mile limit.

Developments all point to a crisis in the present agitation among the workmen of the Russian cities and the peasants in the country on May Day and appeals are pouring in from all quarters of Russia for military protection.

THE CHICAGO STRIKE.

After a day and a large part of the night spent in conference with both sides in the Montgomeey Ward & Co. strike in Chicago, Mayor Dunne late last night announced that he had made no progress toward a settlement of the trouble, and he did not seem hopeful that an adjustment will come in the near future. Further conferences were to have been held today, but it is not thought by either the employers or the strikers that any arrangement will be reached.

The great obstacle to the settlement is that the teamsters insist that the strike of the garment workers, now four months old, be arbitrated before the teamsters return to work, and the employers insist that the teamers return to work before anything is done concerning the garment workers.

Mayor Dunne endeavored last night to bring about a joint conference, but neither side would consent to meet the other.

The firm of Montgomery Ward & Co. succeeded in sending more goods to the freight depots yesterday than at any time since the wagons were under police protection.

Mayor Dunne declined last night to discuss the charges brought to his attention that a bribe had been offered for the settlement of the strike.

"My informant is well intentioned," he said, "but I do not know whether his information is well founded. I cannot give the details of the charges until I have investigated the matter and have found it based upon fact. A man's character cannot be assailed upon mere information. Until I have traced the matter I can say nothing."

A fight between union and nonunion men which attained almost the magnitude of a riot, took placke last night at State and Van Buren streets, when a crowd of union men attacked four nonunion men who were leaving a restaurant.

The nonunion men fought desperately, but were overwhelmed by numbers and were compelled to run. All of them sustained scalp wounds, and James F. Galley, one of the union men in the attacking party, was stabbed in the arm. His injuries are not serious.

James Malloy, a teamster, sixty-one years of age, who had delivered a load of merchandise to Montgomery Ward & Co., was last night dragged by several strikers into an alley at Jackson boulevard and State street, and beaten into insensibility.

The Travelers' Protective Association of America, Virginia division, met in Petersburg Thursday night with 120 delegates in attendance. Mayor William Jones, T. S. Beckwith and R. H. Mann, of that city, and A. D. Brockett, of Alexandria, president of the Virginia division, spoke yesterday. Resolutions were adopted indorsing the good-roads movement. J. S. Oliver, of Danville, was last night elected president of the Virginia division.

The Virginia reports were read from the various posts and State officials, and a lengthy discussion of the national association's conditional appropriation for interchangeable mileage took place. The reading of the report was greeted with applause, each post making a good showing financially and otherwise.

A banquet was last night given the visiting delegates at Library Hall by the local post. Among the speakers were Gov. A. J. Montague, who spoke on "Virginia's Future," and Congressman Claude A. Swanson, who spoke on "Our Country."

Postmasters Lose Perquisite.

Postmasters of small offices are annoyed at the abolishment of the customs by which they were allowed to retain the amount of profit arising from the sale of a single stamped envelope at three cents. This profit is made in fractions of a cent, and has been a perquisite of the stamp clerk in large offices and of postmasters in small ones. Postmasters like to have it to offset losses from mistakes in change. Stamped envelopes sell at 55 cents a bunch, or 75 cents if sold singly. By abolishing the perquisite mentioned the Government will save from $50,000 to $100,000 yearly, or only about one dollar an office.

Investigation by Bishop.

At Claremont yesterday Bishop Randolph and the vestry made an investigation of the recent alleged attack, in Ritchie Memorial Church, of Rev. Mr. Ward on Rev. Mr. Ridout. Mr. Ward has apologized to Mr. Ridout, and the bishop may overlook the matter. Mr. Ward, it is said, rudely treated Mr. Ridout in the robing room while the congregation was waiting, and thrust him against the wall.

John W. Palmer, formerly Secretary of the State, died at his home in Albany, N. Y., after an illness of many months.

The Good Luck Baking Powder's warehouse in Richmond, containing 50,000 cases of goods, collapsed yesterday evening. No lives were lost.

Mr. T. A. Thomasson, who lives about 2½ miles east of Manassas, was burned out about 3 o'clock Wednesday afternoon—the dwelling and nearly all of the household goods being consumed.

Rev. Robert Barnwell, in charge of St. Paul's Church, Richmond, since the retirement of Bishop Strange, has been extended a call by the vestry of St. Paul's Church, Petersburg, to the rectorship of their church, to succeed the late Rev. Dr. O. S. Bunting.

A telegram announces the death in South Carolina of Edward Cooke, eldest son of John Esten Cooke, the Virginia novelist. Mr. Cooke died on Wednesday, after a lingering illness of tuberculosis of the throat. He was thirty-four years old. His remains will be taken to Berryville, Clarke county, today and the burial will be held there.

CANNIBALISM.

It is hard to believe that in this age of civilization cannibalism should exist anywhere on this globe, but such is a fact, states Capt. A. W. Yule, of the British steamer Myrtledene, which recently arrived at Baltimore from the islands of the Tomosa group, where says Captain Yule, the savages are just the same as they were hundreds of years ago, and with the same man-eating propensities. Captain Yule, on his arrival at the island, being unable to land the cargo of the Myrtledene at the quay at Takao on account of the depth of water, was obliged to unload nine miles out in the offing. Natives were engaged to lighter the cargo ashore, but on the approach of night would seek the protection of the native town. After sunset only the most venturesome would dare to be outside the city walls. The savage tribes, called head-hunters, made their homes in the mountain jungles, and were always watching to catch any unfortunate seen wandering away from the town's protection.

While the Myrtledene was discharging her cargo, a heavily armed party was made up to make a trip inland. Being able to take care of themselves the head hunters did not molest them. The chief of one small village visited gloried in the gruesome possession of 100 human heads.

About two years ago the Myrtledene carried asphalt to Washington, and lay off Alexandria several days.

The American ship Benjamin Sewell which was wrecked in Formosan waters sometime ago, which story is told in official correspondence, issued at the State Department, Washington, D. C., this week, and published in the Gazette, is most horrifying. The Botel Tabago savages caused the death of eight members of the ship's crew and treated the rest in a horribly cruel manner. The Formosa islands belong to the government of Japan, who warned the islanders not to repeat such acts in the future. But something more impressive was desired by this government, so more positive measures were adopted; but the Japanese government who found great difficulty in making the natives understand that they were being punished.

The ship Benjamin Sewall hailed from Boston, and her owners, who reside in that city, called the attention of the State Department to the Formosa outrage, soon after the captain of the Sewall reported the affair.

Big Bail for Mrs. Chadwick.

Mrs. Chadwick, when arraigned in the United States District Court at Cleveland Ohio, yesterday, pleaded not guilty to the new indictment recently returned against her by the grand jury, charging her with aiding and abetting Cashier A. B. Spear, of the Oberlin Bank, in making false entries in the bank books and in making untrue statements to the Comptroller of the Currency. Spear was also arraigned yesterday and pleaded not guilty to the joint indictment. The court increased Mrs. Chadwick's bail from $20,000 to $27,000. Of the $7,000 added, $5,000 was to cover the new indictment, while $1,000 was named on each of two of the old indictments, upon which no bail had been specifically fixed heretofore.

In reply to a question of Attorney Wing counsel for Mrs. Chadwick, in court yesterday, District Attorney Sullivan stated that Mrs. Chadwick would not be tried on any of the indictments standing against her during the present term.

This is taken to mean that the government will not try Mrs. Chadwick again unless she escapes punishment on the conspiracy charge upon which she was recently tried. It is known that Mrs. Chadwick's attorneys are quietly at work in another attempt to secure bail for her. Including the bond demanded in the State courts for the release of Mrs. Chadwick, it will now require a total surety of $47,000 to obtain her release pending the decision of the Circuit Court of Appeals on the motion for a new trial.

Mrs. Chadwick was apparently in much better health yesterday when she appeared in the courtroom than during her trial. She was fashionably attired in a black silk costume with a big picture hat.

Today's Telegraphic News

The Fleets.

Hong Kong, April 15.—A number of colliers from Cardiff, and and Durban have arrived here and are awaiting orders. The cargoes of the ships, it is believed, are intended for Admiral Rojestvensky.

Amoy, China, April 15. (Noon).—No reports as to the whereabouts of Admiral Rojestvensky's fleet have reached here yet. The officials stationed here say it is certain that the Russian warships have not yet entered Formosa strait.

London, April 15.—The fact that the whereabouts of the Russian fleet are known and those of Admiral Togo are screened causes many speculations. The Russians seem to invite a conflict in the open sea, while Togo and the Japanese admiralty realize how much would be staked on an open battle. All this leads to but one conclusion, to the minds of experts. Togo will strike, but it will be in the nature of a surprise attack such as was his first blow at the Russian Port Arthur fleet. He will try to pick off the big Russian battleships piecemeal and he will make sacrifices, but it will be of his torpedo boats and other small craft. His main fleet will be held together and he will risk an open battle only when he has to.

Affairs in Russia.

St. Petersburg, April 15.—M. Witte, president of the council or ministers, intends to resign his position to accet the presidency of the commercial bank. M. Witte had a two hour conference yesterday with the Czar at which he made known to the ruler his attention. The Czar refused to relieve the president, who will resign after Easter. M. Witte has been regarded as the strongest supporter of the people in the council of ministers, and has been the advocate of reforms ever since the agitation began.

Warsaw, April 15.—Three workmen who were found guilty of wounding a policeman in the recent labor troubles have been condemned to death. At Lodz, two men killed a policeman today by shooting him with a revolver. One of the men was arrested.

The Chicago Strike.

Chicago, April 15.—Infuriated teamsters attacked a caravan of Montgomery Ward & Co. wagons near the Northwestern freight house, today, dragging a non-union driver from his wagon. This and other acts of violence which has marked the beginning of the day's wagon deliveries by Montgomery Ward & Co. showed the temper of the strikers was not improved by the charges that graft in their organization was responsible for the strike. Fears of great vioence today led the police to take fresh precautions against being hit with bricks, and stones. The caravans were sent out guarded more strongly than ever. In the hope that the strike will be settled, another conference was held this morning in Mayor Dunne's office. Labor men and employes were represented.

Stolen Kiss Cost Him $100.

Cincinnati, April 15.—For the kiss that Dr. J. B. Alexander, of McPherson, Kas., stole from Mrs. Bertha Mitts, of Williamstown, Ky., in bidding her goodbye, he was ordered by a jury in Covington Federal Court today to pay her $100. Alexander was formerly, when a resident of Kentucky, Mrs. Mitts' physician, and the stolen kiss was obtained while he was on a visit recently from his new Kansas home. During his trial Dr. Alexander testified that, out in Kansas, he sometimes kissed 20 to 30 women on leaving home, and no one thought anything about it. When he tried to repeat the performance in Kentucky Mrs. Mitts objected and sued for $5,000 damages.

Accident to Automobile Party.

Butte, Mont., April 15.—A telephone message from the five mile house on the flats below Butte, states that F. Augustus Heinze and an automobile touring party of four persons have met with a serious accident, Heinze's big car having been in collision with a runabout. In the auto were Heinze, A. L. Frank, a mining engineer; and T. C. Bach and M. L. Gunn, of Helena, Mont., and A. E. Hook, chauffeur. All but Heinze were painfully injured, but none will die. While going about 30 miles an hour, the auto crashed into the runabout, driven by Thomas Roe, hurling Roe and and Miss Lillie Lacombe nearly 20 feet. The motor car turned over. Heinze escaped with slight bruises.

Cherries Ripe.

Philadelphia, April 15.—Cherries brought $10 a pound in this city yesterday. The first box to arrive this season was sold at auction. The box contained ten pounds of purple Guigne cherries, from Vacoville, Cal., and was knocked down to a fruit dealer for $100, which is believed to be the highest price ever obtained for a single box of cherries.

The cherries were consigned to a local representative of the California Fruit Distributers, who was paid $70 for the first box received last year. The first box of cherries from California was not received here last year until the first week in May.

To Fight Standard Oil Company.

Oberlin, O., April 15.—The fight that S. G. Gibson, of this place, is putting up against the Standard Oil Company has been renewed. This time the government has taken a hand. Gibson is a local retail dealer who delivers by the gallon. He has steadily refused to buy Standard oil, using the independent. The public stands with him and buys of him, paying a fair price higher than that asked by the Standard. He has been threatened by the combine's agents but defies all efforts to drive him out of the business. A similar case is that of Melvin Hossler, a Chardon, Ohio, oil dealer, who won in a ten year battle against the Standard.

Killed in Railroad Accident.

Genoa, April 15.—The latest reports in regard to the disastrous wreck which occurred through the collision of a passenger and freight train in the Ramo tunnel, near here, last night, show that twelve men were killed and thirty-two serious injured. Many of the passengers on the train were soldiers of the Fifty-fourth regiment. A special train bearing surgeons and hospital requisites was sent to the scene of the accident.

Rome, April 15.—Signor Carlo Ferraris, Minister of Public Works, has started with two hospital trains and military squadron to the scene of the collision on the Genoa Railway line.

Mayor's Family Exceeds Law's Limit.

Chicago, April 15.—Mayor Dunne discovered today that the size of his family brings his residence under the new law regulating hotels, and he could be required to put up fire-escapes and other safety devices were the law enforced. Besides his wife and himself and ten children his home shelters grandparents, uncles and aunts and five servants, making 23 in all. The new law, passed after the Iroquois horror, makes any house holding 20 or more persons a hotel and subject to the laws governing hostelries. Under the law, therefore, the Mayor is a hotelkeeper and could be required to put up a sign to the effect.

The Moroccan Affair.

Berlin, April 15.—The Foreign Office authorizes your correspondent to confirm the report that an exchange of views between Germany and France regarding Morocco has been begun. M. Declasse, the French Minister of Foreign Affairs, at a dinner given by Prince Radolin, the German Ambassador to Paris, Thursday night, asked for a private interview with the Prince. The conference occurred yesterday at the German Embassy and the Moroccan situation was discussed. It is expected that a mutual understanding in regard to the Moroccan affairs will follow.

Two Brothers Found Dead.

Papers Seized in Havana.

Great excitement has been caused in political circles in Havana over the forcible seizure yesterday afternoon by six nationalist congressman of papers covering fifty allegations of improper acts by Havana councilmen and city officials. The incident is the outcome of strife between members of the moderate party, of which President Palma and his cabinet ministers are members, and the nationalists, who control the city and provincial government.

The allegations, which are mostly of a minor description, were made two years ago and sent by the government to Gen. Nunez, governor of Havana Province, for investigation and decision. Gen. Nunez caused the allegations to be investigated to some extent from the records, but the investigation was not completed. The matter was presented to the new and avowedly moderate cabinet, which decided to prosecute the inquiry to a conclusion, and if the facts seemed to warrant it, to depose the city officials responsible for misconduct. It is asserted that they had even selected successors for the officials to be removed.

On Wednesday Gen. Andrade, secretary of the interior, directed Gov. Nunez to return his decisions by Saturday afternoon. When the clerk from the governor's office appeared at the city hall carrying the papers he was attacked by six congressman, among whom was the governor's brother, and overpowered, after which the documents were taken from him and secreted. The nationalist congressmen concerned in this affair have made no statement except to assert that the documents are now in the custody of the House. Gov. Nunez has reported the seizure of the papers to Secretary Andrade and the court of first instance.

Feast of the Passover.

The Feast of the Passover, one of the important Jewish festivals, will begin next Wednesday evening. The feast lasts seven days, with one holiday at the beginning and one at the end, and five intervening half-holidays. According to the Jewish calendar it is the eve of the fifteenth day of Nissan, which is the first spring month. The Passover commemorates the night when the Lord, smiting the first-born of the houses of the Egyptians, passed over the children of Israel whose houses were marked by the blood of the lamb. On that night the Passover bread was eaten as the Hebrews stood ready girded for the march out of Egypt and "with their staves in their hands." The Author of the present dispensation instituted the Lord's Supper while commemorating the Passover, a sacrament which was to be continued as a remembrance until His second coming. Among the orthodox Jews a custom still prevails of filling a wine glass and opening the door of the room in which the feast is held in anticipation of the entry of Elijah the prophet. An important feature of the Passover is the eating of the unleavened bread, and preparations for the making of the flour for the large amount consumed in Jewish families has been going on for months.

The Feast of the Passover was always observed in Israel from the days of the exodus from Egypt, and in the closing days of Israel's national life it was a most popular observance. On the eve of the celebration there is the family service and meal (sedar) which takes the place of the sacrificial lamb that was eaten roasted by the whole family. During the domestic service the Haggadah (Tale) is read and chanted. It contains the history of Israel's trials and redemption and closes with praises to God. Of the old customs there remains the eating of the unleavened bread and the bitter herbs, which were eaten with the paschal lamb and which symbolized the bitter experience in Egypt and other places; also the varied symbolism of the hard-boiled egg and of a mixture of almonds, apples and nuts and of a dish of salt water, in which the herbs are later dipped. These and four cups of wine, prescribed by the ritual, form a most important part of the family meal. The day is one of thanksgiving, in which the Jew thanks God for what he has done and for the future help which he will extend. The prayers offered by the Jew on the eve of Passover are not only for his own freedom, but for all men who are oppressed and unjustly treated. Services will be held in the Synagogue in this city Wednesday night.

The Norfolk Line.

At a meeting of the board of directors of the Norfolk and Washington Steamboat Company held this week it was virtually determined to add a day line to the service in the near future. The handsome, luxurious and powerful steamers of this line have built up a large business between Washington, Alexandria and the south. Traffic has been steadily growing during the fourteen years the boats have been running. Several years ago the steamer Newport News, one of the finest and swiftest steamers in this part of the country, was built for a dayline between Washington, Alexandria and Norfolk. She was afterwards used as an auxiliary boat for the night line. It is thought that the time has come when a day line will meet a growing want.

The Fishery.

The herring fishery is now in its zenith, and the market this morning was overstocked. Prices were consequently nominal. In some instances loads could be obtained practically for the freight The packers are experiencing the difficulty encountered every spring—the scarcity of cutters. A larger number than usual were at work this morning, but equally as many more could have been utilized. Several boatloads of herring were lying at the wharf awaiting customers, while open boats, filled with fish were exposing their cargoes to the sun. Shad were very scarce at prices quoted yesterday. They are liable to advance still further.

The Pochahontas.

The rumor from Norfolk that the "Pocahontas," of the Virginia Navigation Company, has been sold, is not true. Mr. Barber, Secretary of the Navigation Company, was asked last night to make a statement. He said: The "Pocahontas" has not been sold, and we have no idea of selling her. The fact is we have leased the boat to the E. S. Randall Potomac River Line Company, of Washington. We turn her over to the Washington people some time during the last of May. A new crew will come to Richmond and take charge, we, however, keeping our own engineers on board."—[Richmond Times Dispatch.

The New Depot.

The Washington, Alexandria and Mount Vernon Railway Company have taken possession of their new depot at Pennsylvania avenue and Twelfth street, Washington, and trains will begin to run to and from that point tonight. Palm Sunday.

Tomorrow will be Palm Sunday, when services appropriate to the day will be observed in the Catholic, Episcopal and Lutheran Churches. In St. Mary's Church palms will be blessed and distributed to the members of the congregation at 10:30 in the morning. The occasion is in commemoration of the entry of Christ into Jerusalem, when the multitude spread branches in the way and cried, "Hosanna to the son of David! blessed is he that cometh in the name of the Lord."

The Market.

There was a plentiful supply of green stuff in market this morning, which was sold at reasonable prices. Eggs had advanced slightly, and were held at 30 cents a dozen. Butter was not so plentiful, although the price had not advanced. Prime was bringing 30 cents a pound. Many pretty varieties of flowers graced some of the benches. The fish dealers had abundant supplies. Herring were low in price but shad were firm with an advancing tendency. They ranged from 50 to 60 cents each.

He has given bail in the sum of $200 and appealed to the Circuit Court of the county. The result of the trial will be looked forward to with interest, as the rights of fishermen on the Potomac will be determined.

Police Court.

There was no session of the Police Court this morning. Justice Caton is out of the city, but will return by Monday. The only cases on the docket were those of two crapshooters and a King street merchant who is charged with obstructing the sidewalk with boxes. These were continued until Monday.

Germany and Morocco.

Count von Tattenbach-Ashold, who has been appointed temporary charge d'affaires of Germany in Morocco, has given the correspondent of the Lokal Anzeiger at Fez, where the Count is arranging for a special German-Moroccan treaty, a declaration of German'y policy towards Morocco.

"It is not only Germany's right," the Count says, "but also her immediate and undeniable duty, to protect and develop her Moroccan interests. While she energetically demands for the powers signatories at the conference held at Madrid in 1880 a frank recognition of the open door policy, Germany insists on the preservation of the Sultan's sovereignty and the independence of Morocco especially, because both are mentioned vaguely in the Franco-British agreement, and, therefore, permits legitimate doubt on this subject. Germany's programme of action, which stands on a sound and irreproachable footing, is fortunately generally supported by public opinion in Germany and has the sympathy of the whole Spanish population, including the liberal party, and the approval of all the unprejudiced powers. Therefore, Germany may confidently carry out her plans and can fearlessly face the consequences, whatever they may be. The watchword of Germany is, Dauntlessly forward!"

Marketing in Paris.

Almost every woman in France does her own marketing, and ladies take their maid or cook along to carry home their purchases.

I am speaking of the average household. Rich or very chic people leave the marketing to the cook, who deals in stores which have regular deliveries, while in very wealthy households that all important personage, the chef, would not hear of any one interfering with his prerogative of selecting and ordering everything, and this able creator of sauces, of things savory, steaming or jellied, may even have his own coupe to take him to the Halles, the huge market that each day provides the provisions for all of Paris and its suburbs.

Servants love to go to market, for it is a custom with almost every storekeeper to give them a cent on every franc spent, so you will find it next to an impossibility to make your cook deal where she does not receive her sou du franc, and in engaging a servant many will ask you, "Does madame do her own marketing?"—Good Housekeeping.

Milk and Apples.

Though no one would think so from looking at a fluid glass of milk and a solid apple, the percentage of solids and water in apples and in milk is almost the same, apples being 85 per cent water, and milk 86 per cent.

There is more sugar in apples and more acid in milk. A diet of both apples and milk is one of the most wholesome and well balanced. The potash contents of both are high. They are the best for brain, bone and muscle nourishment, and in their effect upon the nerves they are soothing.

In skimming milk the cream removed lessens the fat percentage, and for older people or fat children the skim milk is equally desirable, in some cases better. In eating apples the skin, too, should be eaten. Pared apples are not so nutritious, as the ash contents of the apple skin are valuable to the human system.

Odd Animal Laws.

When a dog was unlawfully killed in countries differing so widely as Germany and Arabia the owner of the animal used to be indemnified in the following manner: The dog was hung up by the tail, with the point of its muzzle touching the ground, and the man who had committed the offense was obliged to pour over it corn or flour until the carcass was completely hidden by the heap. This heap then became the property of the man who owned the dog.

In Syria there was a specially curious variation, for if it were a street dog that was killed the flour was made into bread and given to its fellows. No doubt this arose from the value attached in those old parts to street dogs as scavengers. By the old Welsh laws of Howel the damages for killing an animal belonging to another were assessed in the same odd manner.

Two Kinds of Reading.

If we make the pages of our books merely a sort of pleasant maze in which to set our minds to wandering during idle hours we in reading shall have acquired a pastime that is usually harmless. But there is a vast difference between such a way of spending our time and the reading that teaches us to think as the greatest and wisest men and women have thought. Words stand in our minds for certain ideas or images. From what we read we learn to make these plain or hazy, clearly drawn pictures or carelessly executed sketches, and thus our powers of thinking are directly trained by our method of reading.—St. Nicholas.

Magnet Power.

The lifting of massive iron and steel plates weighing four, six and twelve tons by magnetism is now done every workday in a number of large steel works. The magnets are suspended by chains from cranes and pick up the plates by simple contact and without the loss of time consequent to the adjustment of chain and hooks in the older method. It is also found that the metal plates can be lifted by the magnets while still so hot that it would be impossible for the men to handle them. A magnet weighing 300 pounds will lift nearly five tons.
